

Menheniot Primary School

Criterion Two – Curriculum & Policies

Co-ordinator:- Miss Amanda Raynham
Contact Number:- 01579 342580
Healthy School Validation 2003

School details and context

This primary school is situated in a rural area with 136 pupils in 5 classes in a mixed catchment area.

How the Need was identified.

We have lots of volunteer helpers in school and felt there was a definite need for a policy/code of conduct, as we needed to ensure confidentiality was maintained and that a positive approach prevailed. For example, to ensure that positive comments were made to the children when reading etc.

Chosen Criteria.

Health Related Exercise. – the school developed the code of practice/voluntary help policy as part of criterion 1 and 2.

Steps taken to meet the criteria.

Once developed we ensured the policy/code of conduct was given to all volunteer helpers so everyone felt involved and that all visitors were working with the same aims in mind.

For more information on this policy or for a copy of the policy, please contact the school.

Menheniot Primary School

Who was involved in the process

A working party, staff and governors.

Outcomes/Impact on pupils and the wider community.

All volunteer helpers are aware of the schools expectation and have some basic information about the school and its approach to teaching/learning and working within the classroom.
